

RAKSHIT MAKAN

Senior Data Scientist

📞 5142333618 ✉ rakshitmakan@gmail.com

PROFESSIONAL SUMMARY

Professional with experience in web development, data analysis, and project management. Strong technical skills combined with excellent communication abilities.

PROFESSIONAL EXPERIENCE

Senior ML Engineer Behavox

Jan 2023 - Present

Montreal, QC, Canada

- Collaborated with the R&D team to develop an AI platform powered by large language models (LLMs) tailored for the finance compliance domain.
- LLM Pretraining: Pretrained LLMs on proprietary financial chat datasets using Masked Language Modeling on 2B tokens, optimized for multi-GPU (H100) environments with Python’s Pytorch, transformers and Accelerate module.
- Text Summarization Tool: Built a text summarization tool within the AI platform by implementing prompt-based instruction fine-tuning on SME-curated datasets using ALPACA format
- Designed and automated a training pipeline for logistic regression, BERT-family models, ONNX-format models, and LLM-based text classification.

EDUCATION

Master of Science in Computer Science Dalhousie University

Jan 2021 - Dec 2022

Halifax, Canada

GPA: 4

Bachelor of Technology in Electronics and Communication GGSIPU

Aug 2012 - May 2016

Delhi, India

GPA: 3.5

SKILLS

Programming Languages: JavaScript, PHP, Python

Technologies: React, Node.js

Technologies: React, Node.js

PROJECTS

Project Name

A web application that helps users track their daily activities and provides insightful analytics.
